

## **ATTENTION ROUTES 10, 10C AND 102 PASSENGERS**

**Starting February 9<sup>th</sup>, the Georgia Department of Transportation will implement long-term detours for the 14th Street Bridge Reconstruction Project. During the duration of this project, CCT routes 10, 10C and 102 will be re-routed to avoid the road closures.**

**During the re-routing, routes 10, 10C and 102 will exit I-75 at Northside Drive. Buses will turn left onto 17<sup>th</sup> Street, right onto Spring Street, left onto 10<sup>th</sup> Street, left onto West Peachtree Street, right onto 15<sup>th</sup> Street and left into MARTA Arts Center Station.**

**While on this re-route, the buses will pass MARTA bus stops that are not normally serviced by CCT. CCT will not stop at these locations. MARTA stops currently being served by CCT will continue to be served during the re-route.**

**Construction is expected to last approximately 18 months. This project is expected to have a significant impact on traffic patterns in the area; therefore, bus delays should be expected.**
